- absolute space (Newtonian), 3, 6–7, 10, 11
- accountability, 143, 156; in cyberspace, 128, 167; privacy and, 210; spatial, 134
- ADSL (Asymmetric Digital Subscriber Lines): mass media aspects of, 184–85
- agora: “electronic,” xiv–xv; as ideal space of participatory democracy, xxiv
- alias. *See* pseudonymity
- analog/digital distinction: described, 84–85; relative to metaphor/metonymy, 232n.8
- Anderson, Benedict, 108, 126
- anonymity: of body as object, xx, 215n.6, 226n.27; countersurveillance and, 119, 171; ethics of, 117, 240–41n.11; as liberal privilege, 210; of monetary transactions, 193. *See also* pseudonymity
- anonymous remailers, 117, 220n.21, 240n.10
- apparatuses of security, 113, 141
- apprehensible: defined, 136–37
- Archimedean perspective (Arendt), 51–52; computers and, 114, 231n.5
- Arendt, Hannah, xxvi, 36, 139, 165, 224n.15, 226n.28; body politics of, 47, 48–49, 55–60; on physical space, 54; quote of, 50, 53, 54, 55, 59; on speech and action, 47, 49, 69; technological determinism of, 60, 225n.24; on technology, 50, 52
- ARPAnet, 89, 91
- articulation, discursive, 11–13; of “the body,” 57, 132, 135; defined, 218n.11; of spatial elements, 12
- as-if simultaneity (Schutz), 32
- Asymmetric Digital Subscriber Lines. *See* ADSL
- Athenian democracy, xiii–xv; exclusions of, 47–48, 205–6, 224n.15
- Bamford, James, 110
- Baran, Paul, 88, 93, 232n.10
- Barber, Benjamin, 36, 200, 256n.3; on electronic communications, 43–44
- Barlow, John Perry, 147; on anarchy

- of Internet, 91, 190, 240–41n.11;
on civilizing cyberspace, 187; de-
fense of strong encryption, 174;
on “frontierizing civilization,” 193,
197; on intellectual property, 11;
on national security rhetoric, 170;
quote of, 187
- Benhabib, Seyla: quote of, 209
- Berlin Wall, 208–9
- Berners-Lee, Tim: on inventing the
Web, 97
- Birth of the Clinic, The* (Foucault),
xvii; quote from, xviii
- bits (binary digits), 26; described, 84
- bit space, 78; as atoms/electrons mix,
83; characteristics of, 85–86,
231–32n.7. *See also* electronic
computing
- Boal, Iain A.: quote of, 206
- body: citizen’s, 134–36, 204–5,
246n.39; digital, xxi, xxiii, 139;
as disciplinary object, xvii–xviii,
214–15n.5; discursive materiality
of, 130, 245n.32; embodiment and,
130–32, 244n.30; escape from,
122–23, 138; identity and, 119, 127,
129–30, 132, 135, 137, 244n.29; as
meat, xxii, xxiii fig.1; as space, xvii;
in space, xviii, 25; visibility of, xxiv,
56–58, 132, 205, 210
- bodynet (Mitchell), 132, 237n.33
- body politic, 227n.32
- Bolter, J. David, 82, 230–31n.3, 231n.7
- Borges, Jorge Luis, 13
- Brand, Stewart, 241n.16; on hackers,
122; on intellectual property, 10
- Brook, James: quote of, 206
- Butler, Judith, 130–32, 168, 244n.30
- capitalism: global, 155; information,
143, 192; space-economy of, 6–7, 9
- Capstone chip, 158
- Cerf, Vinton, 97
- Chinese encyclopedia (Borges): as
heterotopia, 13–14
- citizen: bodily rights/obligations of,
136; as effect of binding body to
space, 134–36, 204–5, 246n.39;
politically apprehensible (Stone),
134–37, 141, 204–5, 246n.39
- citizenship: civic-republican ideal,
67–68, 204; embodiment and, 109,
134, 136, 139; political economy
of, 224n.20; territorial history of,
135
- civil society (Habermas), 61, 227n.30;
depersonalization of, 227–28n.34
- Cleaver, Harry, 154, 191
- Clinton, William J.: quote of, 168, 169
- Clipper chip, 146; described, 158; re-
treat from, 177
- communication: democracy and,
xiii–xiv; interactivity and, 32;
sociospatial characteristics of,
71–72, 124; technologies, 53. *See
also* computer-mediated commu-
nication; face-to-face communi-
cation; public communication
- communitarianism, 43, 45–46, 56, 72,
223n.12, 250n.24
- computer cross-dressing: “Julie” story
of, 127–30, 137–39, 244n.28
- computer-generated imaging (CGI):
as heterotopic technique, 86–87
- computer-mediated communication
(CMC): anonymity of, 29; charac-
teristics of, 127, 153, 242–43n.23,
243n.24, 247–48n.8; identity and,

- 108–9, 125, 127; relationship to telephone, 182–83; responsibility and, 71, 128; semiotics of appearance in, 148–49; types of, 124–25, 220n.21, 242n.20
- computer network: architectures, 88, 89 fig. 3; services and protocols, 219–20n.20, 242n.19. *See also* Internet
- computers: gender issues and, 127–29, 138, 243–44n.26, 244n.27, 254n.47; as tools of liberation, 122; virus scares and, 117, 233n.13, 239–40n.8. *See also* personal computer
- computer underground, 120
- cryptography. *See* encryption
- cryptology: mainframes and, 95. *See also* encryption
- crypto politics, 196; defined, 143–44
- culturally intelligible body (Butler), 130
- cyberpunk, 220n.22; defined, 104
- cyberspace: access to, xxiii, 26; as safe space, 208; bodiless exultation of, xxii, xxiv, 122, 211; etymology of, 79, 102; as hardware/software/wetware, 76–78; heterotopic aspects of, 76, 100, 137, 169, 181, 202, 211; physical aspects, 26, 80, 82–85, 88–89, 96; as physical/conceptual/lived social space, 26–28; physical/virtual dialectic of, 24, 27; public-realm theory and, 54, 70, 205, 226–27n.29; spatiality of, xxv, 8, 126–27. *See also* bit space; Internet; network space; personal computer
- cyborg, 109, 132–33, 189, 225n.24, 238n.2
- Cypherpunks, 147, 251–52n.30; defined, 246n.4
- data-image, 119; defined, 113; encryption and, 171; as heterotopic disruption, 115, 137–38
- dataveillance, 112, 114
- de Certeau, Michel, 8
- Defense Advanced Research Projects Agency (DARPA), 87, 89
- democracy: communication and, xiii–xvi; described, 35, 221n.1; governmentality and, 112–13; participatory, 35, 143, 199; representative, 35, 38; secrecy and, 174–76, 207
- democratic theory: spatial conceptions in, 35–37, 40, 41 fig. 2, 42, 221n.3 (*see also* “problem of scale”); spatial turn, 200–201; technology policies and, 204
- Der Derian, James: quote of, 215n.12
- Dery, Mark: quote of, 242–43n.23
- Dietz, Mary, 55–56, 58, 225n.21, 226n.28
- digitization, xxi, 84; as data loss, 113
- Disch, Lisa, 51, 58, 59, 224n.15, 225n.22, 256–57n.6
- Discipline and Punish* (Foucault), xvii, xviii; quote from, xix
- discourse, 11–13, 218n.11; defined, 213–14n.2; spatial elements of, 12
- Dominguez, Ricardo, 155–56
- DSL. *See* ADSL
- Electoral College (U.S.): spatial critique of, 221n.3

- electronic computing: electromagnetic characteristics of, 81–82; history of, 80; spatial graphics in, 98–99, 100 fig. 4. *See also* bit space
- Electronic Frontier Foundation (EFF), 146; origins of, 187–88, 240n.9; Washington politics and, 256n.5
- “Electronic Frontier” metaphor: classical liberal underpinnings of, 190–92, 255n.50; as cyberspace blueprint, 142, 218–19n.15; freedom of movement in, 189, 254n.47; origins of, 254n.44; as society blueprint, 188–89, 193, 254n.46. *See also* metaphor
- embodiment: and “the body,” 130–32, 244n.30; in bourgeois public sphere (Habermas), 69, 71; citizenship and, 109, 134, 136, 139; collective action and, 208–10; of computers, 98, 132–33; sovereign power and, 62, 227n.32; in space of appearance (Arendt), 55–58, 71
- encryption, 142, 157–58; antidemocratic defense of, 195, 255n.51; countersurveillance use of, 174, 176, 181; defined, 142; as “envelope,” 173; key-recovery/“wire-tappable,” 146, 179; liberal spatial discourse of, 159–60, 163, 167, 171; as “munitions,” 144, 166; prodemocratic defense of, 173–74; split-key/“strong,” 159; “threats” in U.S. debate about, 164, 171–72; as wall between physical/virtual selves, 171. *See also* Zimmermann, Philip
- ENIAC (Electronic Numerator, Integrator, Analyzer, and Computer), 81; -on-a-chip, 231n.4
- face-to-face communication: characteristics of, 71–72; as condition of social space, 1; critical distance and, 206, 256n.5; democracy and, xiv, 33, 45, 46, 255n.1; interactive mediation and, 32–33, 126, 216n.16; phenomenology of, 30–32
- Fairclough, Norman, 114
- fiduciary subject (Stone), 134. *See also* citizen
- Foreign Intelligence Surveillance Act (FISA), 250–51n.25
- Foucault, Michel, 112, 114, 131, 132, 213–14n.2; on heterotopia, 13–15; quote of, xviii, 15, 16, 19; spatial metaphors of, 4, 216n.1
